SAILOR KILLED ABOARD U.S. FLAGSHIP

SIR WILLIAM HORNELL IN SWIMMING MISHAP

Carried Under Lido Lady

A distressing accident befell Sir William Hornell, the popular Vice-Chancellor of the Hong Kong University, while swimming at Repulse Bay yesterday afternoon. As a result of the mishap, Sir William was removed to the Queen Mary Hospital, suffering from head injuries.

It was learned that Sir William Hornell and a party went to Repulse Bay yesterday afternoon about 5.15 and swam out to the Lido Lady. Sir William dived from the pleasure craft and was swimming on the lee side when a sudden squall caused the Lido Lady to swing round.

The Vice-Chancellor was carried underneath the Lido Lady and struck his head on the keel.

When Sir William came to the surface he was unconscious.

Sir William was immediately taken ashore where artificial respiration was applied and he recovered after a few minutes.

Later Sir William was removed to the Queen Mary Hospital.

WHEN ANTI-AIRCRAFT SHELL STRIKES DECK

FIERCE FIGHTING IN EASTERN SECTOR:

Hand Grenades Used

CHINA MAY APPEAL TO LEAGUE

SHANGHAI, AUG. 20: ONE AMERICAN SAILOR WAS KILLED AND EIGHTEEN WOUNDED ABOARD THE U.S.S. AUGUSTA, FLAGSHIP OF VICE-ADMIRAL H.E. YARNELL, COMMANDER IN CHIEF OF THE UNITED STATES ASIATIC FLEET, WHEN AN ANTI-AIRCRAFT SHELL STRUCK THE AFTER WELL DECK. THE ORIGIN OF THE SHELL IS UNKNOWN. SEVERAL BRITISH WARSHIPS WERE LYING JUST BEHIND THE U.S. FLAGSHIP WHEN THE SHELL FELL. THE AUGUSTA WENT UP THE WHANGPOO RIVER ON THURSDAY AND MOORED AHEAD OF H.M.S. DUNCAN WITH HER BOW POINTING TO THE JAPANESE CONSULATE. —REUTER.

SHANGHAI, AUGUST 20: RIFLES, MACHINE GUNS, HAND GRENADES AND TRENCH MORTARS WERE USED BY CHINESE AND JAPANESE FORCES IN HAND TO HAND FIGHTING IN THE EASTERN DISTRICT OF THE INTERNATIONAL SETTLEMENT TO-DAY.

MEANWHILE, CHINESE AND JAPANESE PLANES HAVE CONDUCTED ALTERNATE RAIDS. THERE WERE SOME DRAMATIC MOMENTS WHEN THREE SILVER COLOURED CHINESE PLANES, FLASHING IN THE SUNLIGHT, TRIED TO BOMB THE JAPANESE FLAGSHIP, IDZUMO, BERTHED IN MIDSTREAM, FROM A HEIGHT OF 10,000 FEET.

THE BOMBS MISSED THE FLAGSHIP AND LANDED NEAR THE JAPANESE WHARF. AMONGST THE BUILDINGS SET AFLAME AS A RESULT OF TO-DAY'S BOMBARDMENT WERE THE FACTORIES OF THE NANYANG BROTHERS TOBACCO COMPANY, ONE OF THE BIGGEST CONCERNS OF ITS KIND IN CHINA. THE FIRE STARTED WITHIN A QUARTER-OF-A-MILE FROM THE JAPANESE CONSULATE.

BUILDINGS ROCKED WHEN FIELD GUNS ON THE NANTAO BUND OPENED UP AGAINST THE IDZUMO SENDING SHELLS DIRECTLY OVER FOREIGN WARSHIPS, LYING OFF THE SHANGHAI CLUB, THE SAILORS OF WHICH NOT KNOWING WHAT WAS HAPPENED SCRAMBLED BELOW DECK.—REUTER.

Nanking, August 20: Japanese bombers again raided the capital at 7.30 p.m. The city reverberated from the explosion of bombs and the fire of anti-aircraft machine-guns to which thunder and lightning of a natural storm contributed. The Aviation Headquarters announced that a Chinese bomber this morning scored a direct hit on one of the Japanese aircraft carriers lying off Woosung.—Reuter.

Shanghai, August 20: Hand fighting is claimed to have occurred in the afternoon in the eastern district of the International Settlement where the Chinese are concentrating in an endeavour to drive a wedge between the Japanese forces.—Reuter.

CHINESE OCCUPY WAYSIDE WHARF

Shanghai, August 20 (5.50 p.m.)—A party of foreign correspondents made a special trip this afternoon to the Chinese lines to interview General Chang Chih-chung, Commander of the Nanking-Shanghai Garrison in connection with the reported occupation of the Wayside Wharf by Chinese forces.

When questioned by the correspondents, General Chang, who is directing operations against the Japanese around Shanghai, confirmed the report, saying that the Chinese forces had actually taken the wharf on the waterfront on the night of August 19.

It is also reported that the Chinese troops are pressing slowly on the Japanese left flank in the North Szechuan Road area which has been isolated from the right flank in the Yangtszepoo sector.

Meanwhile, it is learned that the Shanghai Municipal Police in the International Settlement are taking precautionary measures to prevent the Japanese from entering the area south of the Soochow Creek.—Central News.

London, August 20: It is considered probable that China will shortly appeal to the League under Article Seventeen of the Covenant according to Chinese circles in London. It is pointed out that China has hitherto refrained from taken this step on the grounds that Western powers would be unlikely to give her effective support. This attitude has now been reconsidered in that belief it would be advisable to draw the attention of other League Powers to what Chinese circles qualify as Japanese aggression.—Reuter.

WORSE TURN EXPECTED

A usually well-informed quarter states that there will be a worse turn in the Sino-Japanese conflict as a result of the lengthy conference held this morning attended by Prince Konoye, the Prime Minister, and the Foreign, War, and Naval Ministers. They have been deeply concerned with unfavourable opinions expressed by the foreign powers, and the adverse positions at the various sectors of operation in China. They came to the conclusion that they could only save the face of the Imperial Japanese Army by massing whatever troops they could to Shanghai to capture both Shanghai and Nanking with the hope of demoralising the Chinese.—Da-Dao.

NO TRIPS TO THE FAR EAST!

Washington, Aug. 20.
The Navy Department has refused to permit the dependents of naval and military officers to sail for the Far East owing to the unsettled conditions in China and to the cholera in Hong Kong. Transport of dependents to Hawaii and the Philippines, however, is not impeded.—Reuter.

JAPAN UNABLE TO ACCEPT

Tokyo, Aug. 20.
In the present critical situation in Shanghai, Japan is unable to accept the British proposal for a neutral zone, stated the spokesman of the Japanese Foreign Office to-day.—Transoceanic News Service.

JAPANESE PLANES OVER SHANTUNG

Peking, Aug. 20: According to information received here, a squadron of eleven Japanese planes scouted over the south-eastern coast of Shantung province in the morning on August 18. Their activities took them through many districts in the south-eastern area. —Central News

TWO EARTHQUAKES ROCK MANILA

American Refugees From Shanghai Terrified

Manila, August 20.
Two earthquakes of considerable intensity rocked Manila while the first batch of American refugees were arriving from Shanghai. The electricity supply and telephone system were interrupted, shop windows smashed and cinemas were hurriedly evacuated.

The shocks are described as the worst experienced in forty years. The streets are at present full of people afraid to return to their homes.

Some of the refugees from Shanghai were already ashore when the earthquakes occurred and were absolutely terrified. The damage is not yet known but the belfry of the Pandacan Church, one of the oldest in Manila crashed to the earth. It is reported a number of persons were injured mostly of a slight nature.

Mount Apo (9,810 feet) in Mindanao was reported late yesterday to be erupting probably caused by the quake.—Reuter.
The city was tense to-night. The Manila Observatory is forecasting further quakes though of probably lesser intensity. It is reported a number of the refugees fainted as earth and buildings heaved at the epicentre which is stated to be at Dagupan, Pangasinan Province.—Reuter.

To My Reluctant Foe

The peals of Drums like thunder roar,
Echo o'er the field of war.
Like driving rain across the plain,
Doth gush the blood of warriors slain.
Why this tremendous loss of lives?
For what thy noble country strives?
While statesmen secure in their home
Calmly watch you meet your doom.
For what hast thou thy blood to shed?
Knowest not thou art blindly led?
Think of thy dear ones back at home.
Hear their plaintive bidding "Come!"
See how thy grieving parents yearn
For thy welcomed safe return.
Behold their care-lined face and tears,
Hast thou no pity for their years?
While statesmen claim their share of fame,
Perchance thou liest in a grave of shame.
We both are fruits of self-same seed,
We both acknowledge the same creed.
Why should we shed each other's blood?
Why not share our mutual good?
In fact and truth thou art my brother!
So why must we fight and kill each other?
Let us lay down our arms awhile
And break through our Leaders' Mask of Guile.
Cannot we settle without force?
Cannot we trace our trouble's source?
For long we sought in vain for Peace!
And though War came, we ne'er shall cease
To strive for Peace, but NOT WITH SHAME!
For Peace with Honour is our aim.
So let me plead with you my friend,
Let our conflict come to end.
Let us boldly face each other,
No more a foe, but each his brother!

By a Peace-loving Chinese.

They were charged with possession of 38,000 heroin pills and 315 2/3 ounces of pink mass at No. 161 King's Road, top floor, on July 19.

Man Wo pleaded guilty to the charge. The jury empanelled for the case were Messrs. A. A. Noronha (foreman), Lal Yek Man, Yuen Kam Chuen, G. S. Lovett, J. S. Harwood, F. F. Ribeiro and J. J. Richard.

THE CHOSEN PEOPLE

(By Scrutator)

The first thing to remember about the Hebrews is that it was not they who chose God but God who chose them. The religion that came to birth in the wilderness in the heart of a nomadic people was part and parcel of their nationhood. Under the leadership of Moses the Hebrews were moved to assert their nationhood among the Egyptians and their continuity with their ancestral religion. The whole history of Israel was a commentary upon their faith, upon the nature of the God in which they believed. It did not express the metaphysical conception of God's self-existence, it gave them the knowledge that God would be to them what He would be: "I will be what I will be." From the Christian point of view, it may be added, that this divine process of self-revelation receives its fullest expression in the personality and achievement of Jesus, and that eternity as well as time be required to conclude and fulfil the extent of the complete Divine self-disclosure.

A SEMITIC NATION

As a Semitic nation, the Hebrew religion went far back and had its roots in Semitic paganism, and certain features of that paganism, never wholly rationalised, retained their place in the Jewish religious rites. The laws of cleanliness and uncleanness, the conception of ceremonial holiness, are explicable as remnants of primitive taboo. Hence these elements were dropped in Christianity.

After the long Egyptian oppression and the consequent slave morality and mentality which prevailed among a large section of the race, they were a singularly unpromising type to receive the Divine trust which constituted them the people of revelation. Remembering their history it becomes less difficult to understand their frequent lapses alike in religion and morality. Indeed only by accepting the probability that from Moses onward to the great prophets and leaders there must have been a succession of men capable of inspiring their fellows to fresh efforts and achievements in their way their fathers had chosen for their race.

THE LAND OF THE RELIGION

The religion of Israel was born in the desert, but to achieve its destiny it had to be removed to different surroundings. Palestine was chosen by God as the scene of that long process of His self-disclosure which was to culminate in the supreme revelation of Jesus Christ.

Palestine is a tiny land, and the most striking feature of the country is the valley of the Jordan. The river is formed by the confluence of three streams, and the country itself, though very small, yet exhibits a great diversity in climate, soil, scenery and level. The character of the country militated against the unity of the Hebrew people when they settled there in the hillier regions. They broke up into detached groups after they had found their feet there. They mingled with the Canaanites. They were easily conquered by enemies, but what was politically disastrous turned to the advantage of religion.

Their passion for liberty, their revolt against tyranny, destroyed any attempt made to set up an Oriental despotism which might have strangled their religion while it was yet immature. The position of the country, through which ran several caravan routes, brought the people into touch with other races and other religions all of which contributed to their own development.

THE SETTLEMENT

The settlement in Canaan profoundly affected the religion of Israel. In its origin it had been a wilderness religion, but when the people began to learn the arts and crafts which were necessary to a settled life, they became involved with new conceptions of God, conceptions which were separately enshrined in pagan godheads among the more highly cultured Canaanites. The intolerance of the Hebrew God, and the ethical quality of their religion, enshrined in such persons as Elijah, saved the people and their faith. But it was a long and difficult struggle upwards in which the people relapsed time and time again.

NATIONALISM CHALLENGE TO CHRISTIANITY

CALL FOR A NEW EVANGEL

The challenge to Christianity of nationalism, and the rise of dictatorships, were discussed at the World Conference on Church, Community and State, at Oxford. Professor Arvid Runestam, Uppsala, Sweden, declared: "The growing strength of the new nationalism takes effect in the voluntary submission of the individual to the collectivity and its leader. It is not Mussolini, Hitler and Stalin; it is the new strong impulse to submission which has produced dictatorships. We need not only supra-national discussions of organisational and theological questions, but supra-national evangelism—I had almost said a new type of Christianity, a living Christianity of an international character."

Professor H. P. Van Dusen, New York, maintained that they had been sent to Oxford by millions of troubled, confused, heartsick, yet eager Christians, to bring back to an ailing church, and through it to an ill world, a medicine for its need—a clear compelling evangel.

Urging the need for falling in their duty, he added: "Too often we have watched the people's political agents, the statesmen, assemble to plan for the peace of the world, and return with only a pitiable fraction of what their peoples were prepared to undertake. The world's present tragedy is in large part the fruit of their failure."

Dr. J. H. Oldham, London, asserted that many people outside the Church still looked to it with wistful hope. Could the Church evoke and educate a conscience which might help to save society from corruption and decay?

SLAVE SHIP

A spectacular drama that storms in epic sweep over half the world, "Slave Ship," which opens at the Queen's and Alhambra Theatres to-day, stands head and shoulders above the general level of film fare to take its rightful rank as the mightiest of all the sea sagas. The new Twentieth Century-Fox film, which co-stars Warner Baxter and Wallace Beery, pictures the adventures of the last slaver as, with mutiny reddening the decks, it sails on its last desperate voyage.

To Warner Baxter falls one of the most colourful roles of his career, as a romantic scourge of two oceans, defying the waves of all the world and fighting at last for love in the greatest adventure of all.

Opposite him is Wallace Beery, in a role that dwarfs all of the famed actor's previous sea roles. As the villainous mate of the last slaver, Beery makes the big-nosed, bull-headed seaman a figure of continuous interest and treacherous to his dying breath.

THEY GAVE HIM A GUN

With Spencer Tracy, Gladys George and Franchot Tone in the leading roles, "They Gave Him A Gun" opens to-day at the King's Theatre as one of the more important releases from the Metro-Goldwyn-Mayer studios.

The picture, based on the novel by Major William Joyce Cowen and directed by W. S. Van Dyke II, deals with the effect of war on the psychology of youth, tracing the transition of a kindly young clerk who goes through war into a dangerous post-war racketeer.

"DEVIL DOLL"

Familiar and beloved though he is to patrons of the screen, Lionel Barrymore is recognizable only by his inimitable artistry, in Metro-Goldwyn-Mayer's "The Devil Doll" showing at the Oriental Theatre to-morrow and Monday.

The story concerns the career of a half-mad scientist who conceives a formula that reduces animals and human beings to a sixth of their natural size but leaves them hopeless morons, subject to the will of their insane master. The laboratory, with its macabre scenes of tiny humans and the gloating genius plotting his revenge on cruel enemies, is one of the tremendously startling spectacles in which Barrymore has ever participated.

MORE THAN A SECRETARY

Continuing in the glorified tradition of "It Happened One Night," "Mr. Deeds Goes To Town" and "Theodora Goes Wild," the Columbia Studio's present this week at the Majestic Theatre, starting on Sunday, a new comedy-drama entitled "More Than A Secretary," with Jean Arthur and George Brent in the star roles. In addition to the popular principals, the picture has an exceptionally strong supporting cast including Lionel Stander, Reginald Denny, Ruth Donnelly, Dorothea Kent and Geraldine Hall.

A ROYAL BIRTHDAY

Princess Margaret Rose, seen above with Princess Elizabeth, to-day celebrates her seventh birthday.

CHINESE NEARING WHANGPOO AND SOOCHOW CREEK

London, Aug. 19.
According to dispatches received here late to-night, it is stated that, whilst firing between Kiangwan and Woosung is continuing without decision, the Chinese have succeeded in further advancing in Hongkew and pushing forward up to a few hundred metres from the Whangpoo.

The Chinese are now two kilometres east of Garden Bridge, leading across Soochow Creek. The Japanese are penetrating the gap with armoured cars and all troops available.

With this new Chinese advance the battle once more approaches the centre of the International Settlement, and the International guard on Garden Bridge has been considerably strengthened. The S.M.C. requested the Japanese Admiralty to remove part of the refugees from the Settlement, since refugees endanger the safety of the Settlement.

The S.M.C. suggested that two Chinese refugee steamers should sail daily to Ningpo and that they should be assured of Japanese free passage.

JAPANESE ALLEGATION

Tokyo, Aug. 19.
The Japanese Admiralty issued a statement here, according to which Japanese planes bombed the powder magazine at Nanking yesterday. It is alleged that the magazine exploded. Confirmation of this report from other sources could not as yet be obtained.

WHEN YOU'RE IN LOVE

Doff your hats to one of the most completely captivating pictures ever to grace a local screen. At the Majestic Theatre yesterday, Columbia's new Grace Moore vehicle, "When You're In Love," unfolded itself to the undisguised pleasure of those gathered for the occasion.

Serving as Miss Moore's leading man in this film, is tall, dark and handsome Cary Grant. In the pleasing role of a two-fisted, hard-drinking American artist in Mexico, Grant gives his best portrayal to date. He serves the picture well. But the surprise is yet to come. The film treats its audience to a story that would be welcome even without music. It is a deliciously cock-eyed yarn cooked up by that master of screen writers, Robert Riskin, who penned such comedy hits as "Mr. Deeds Goes To Town" and "It Happened One Night." With this film, too, Riskin makes his debut as a director, and he can well be proud.

FIGHTING CONFLAGRATION

Lyons, Aug. 19.
A huge fire started in a saw mill at Vienne, a small town near here, today and spread to the whole district of the town. The power station was damaged, plunging the town in darkness, while the skies were lit in crimson by the flames.

A special train was run from Lyons carrying firemen to assist in fighting the conflagration, which was controlled after many hours of hard work on the part of the Fire Brigades.

JAPANESE DISSOLVE HOPEI-CHAHAR COUNCIL

Peiping, Aug. 19.

"Two Japanese divisions are taking part in the fighting for the Nankow Pass. The 11th Division was to-day near Dolonor and will attack the pass from the North, while the 12th Division, the crack division of the Japanese Army, commanded by General Itakaki, will attack from the South."

Heavy fighting took place this evening near Chiang Shin Hien, south of Peiping.

The Japanese Supreme Command has dissolved the Hopei-Chahar Provincial Council, and thus severed the last tie with Nanking. The occupied territory in North China is now completely ruled by the Japanese military and their Chinese proteges.

ALLEGED SPIES EXECUTED

Moscow, Aug. 19.

Another 34 alleged spies and members of the so-called Trotsky terrorist organisation have been executed at Irkutsk.

It is stated the accused men were found guilty of carrying out instructions of the Japanese intelligence service, endeavouring to discover military secrets.

The military court also found that they had carried on sabotage.

CRYSTAL PALACE BLAZE

London, Aug. 19.

What is left of the Crystal Palace after the disastrous fire of November last caught fire to-day.

Sparks from a rubbish heap near the old School of Arts started the conflagration, which is spreading rapidly. The flames rose to a height of forty feet, and seven or eight fire engines are trying to put out the blaze, which appears to be burning itself out.

The north and south towers are still intact.

JAPANESE COLUMN ANNIHILATED

Kwail, Aug. 20: A Japanese column which attempted to make a surprise raid on the Chinese positions at Nankow on August 17 was annihilated when the Chinese front lines opened fire with machine-guns, according to military intelligence received here to-day.

DONATION FOR RELIEF WORK

Hankow, Aug. 20: Mr. Li Jui, a wealthy local merchant, has donated \$20,000 for relief work behind the front lines. The money has been forwarded to Generalissimo Chiang Kai-shek through Mayor Wu Po-chen of Hankow.

JAPANESE ORDER TIENSIN SCHOOLS TO OPEN

Paoing, Aug. 20: Japanese military authorities in Tientsin have ordered all government and private schools in the city to open for the fall semester as usual, according to a report received here to-day.

It is learned that all text books used in schools in the city will be "revised."

JAPANESE AIR RAID ON HANKOW FRUSTRATED

Hankow, Aug. 20: Alertness on the part of the Air Defence Force here frustrated an attempted attack on the Tri-cities by a fleet of eight Japanese bombers yesterday afternoon.

Official quarters revealed to-day that the local military received an urgent message shortly after noon from Wuhu stating that the Japanese machines had been sighted over the city and was heading for Kiukiang and Hankow.

An alarm was sent out and the people moved orderly into bomb-proof dug-outs while the anti-aircraft crew got ready for action. Two squadrons of Chinese pursuit and bombing planes took the air, one flying to Kiukiang to intercept the invaders while the other unit remained over the city.

Upon seeing the Chinese planes near Kiukiang, the Japanese bombers turned south in the direction of Nanchang and Yochow, disappearing in the south-easterly direction.

The Chinese pursuit planes continued to search the surrounding area but failed to locate the invaders, returning to Hankow at nightfall.

WHOLESALE EVACUATION

Shanghai, Aug. 20: The Chinese officially claim to have reached the waterfront in the eastern district of the International Settlement, thereby splitting the Japanese Forces in two. The report still lacks independent confirmation.

The latest developments have caused the German Consular officials to speed up the wholesale evacuation of German nationals.

More British Refugees For Hong Kong

London, Aug. 19: According to Shanghai press telegrams, 900 more British women and children left there to-day for Hong Kong.

CAUSE OF JEOPARDY IN SHANGHAI

France Joins Britain In Proposal To End Sino-Japanese Hostilities

London, Aug. 19: News messages from Paris refer to the official announcement at Quai Dorsay of the French Government's approval of the proposal which has already been submitted by British Government to the Chinese and Japanese Governments with the aim of ending the Sino-Japanese hostilities at Shanghai.

According to these reports, the French Ambassadors at Nanking and Tokyo have been instructed to join their British colleagues in urging the acceptance of the proposals which provide for the separation of the forces now in conflict around Shanghai, and special concerted measures of security in the International Settlement ensuring the safety of Japanese nationals after the withdrawal of Japanese military and naval reinforcements—the presence of which

BRITAIN CLAIMS DAMAGES FROM JAPAN

London, Aug. 19: The action the British Government will take if British buildings in Shanghai are seized was made clear in London to-night. The Government will demand compensation for any damage done, for loss of rent, damage to commercial interests and loss of prestige and any other business.

A strong protest has already been sent to Tokyo with respect to the British brewery, owned by Jardine, Matheson and Company, which the Japanese have taken over. A claim for compensation for damage and rent has been made.

Other cases have been reported, such as the Japanese occupation from the ninth floor upwards of the British-owned sky-scraper, Broadway Mansions, but no intimation of official British action apart from the case of the brewery has been given.

An academic point to be cleared up may arise in the case of British buildings "damaged" by the Japanese bombardment. It is not quite clear whether a claim for compensation will be made against China, since the buildings are on Chinese soil, or Japan.

NEUTRALISATION OF SHANGHAI

Paris, Aug. 19: Commenting on the British Plan for a neutralisation of Shanghai, the "Temps" says that this plan is neither an intervention nor a mediation. No attempts have been made to initiate diplomatic negotiations between Tokyo and Nanking. The question merely was to keep Shanghai from becoming a battlefield.

One could presume that the Shanghai incidents had strongly handicapped Japan's plan, which had only aimed at a local settlement in North China. If, on the other hand, the idea existed in extreme Chinese circles that international complications in Shanghai could facilitate Chinese resistance against Japan by spreading the conflict, then Nanking ought to realise that no prospect of active intervention on the part of the Western Powers existed.

At the present state of affairs none of the Western Powers was thinking of invoking the Nine Power Treaty and of taking an open stand in the fight between both parties. It would therefore be rather strange if Japan or China would flatly refuse to accept the plan.

FRENCH ATTITUDE

Paris, Aug. 19: It is reported that the French Ambassadors in Nanking and Tokyo have been instructed to join in the demarche suggested by Britain regarding the neutralisation of Shanghai.

No great hopes, however, for this step are entertained here, since the Chinese as well as Japanese papers indicated that the suggestion would not be accepted. It is moreover suggested here that Japan has engaged herself too far now to be able to withdraw.

ARMY RESERVISTS

London, Aug. 19: Another 500 army reservists have asked to rejoin colours since the statement issued yesterday by the War-Office, that 1,500 had already expressed desire to avail themselves of the Government offer announced last week by the War Secretary, Mrs. Hore Belsham.

The offer is experimental with view to testing the extent to which men themselves wish to make army a career.

Under this scheme, reservists in sections A and B of the Army Reserve are being allowed to rejoin colours with view to qualifying for pension.

NEUTRAL ZONE

Washington, Aug. 18: Officials state that Britain's proposal for a neutral zone in Shanghai is being closely considered, but the United States' decision cannot be expected immediately.

Refugees in Manila

Washington, Aug. 19: The United States Commissioner for the Philippines has reported that 375 United States nationals have been evacuated from Shanghai and have arrived in Manila.

INCREDULOUS AMAZEMENT

Chinese Dislike Principles Of Extraterritoriality

London, Aug. 19: Knowing full well that Shanghai is an international city and that the Chinese dislike the principles of extraterritoriality, the Japanese anchored the cruiser Idzumo alongside the Consulate-General, comments a weekly review well-known in Britain and the Far East.

The Japanese in this way provoked the Chinese to retaliate in such a manner that the peace of the International Settlement has been seriously endangered.

The world watches the onslaught with profound regret that the Japanese have so acted that none of the powers involved in the fortunes of Shanghai can be indifferent to the outcome.

O. M. Green, in an article in the same periodical, says the utter madness of the Japanese military clique fills one with incredulous amazement. Japan has put herself in a position from which it will be difficult to withdraw without bad loss of face, while to advance means she will sink deeper and deeper into the bog.

Princess Margaret's Birthday

London, Aug. 19: Princess Margaret will be seven years old on Saturday. Hers will be the second royal birthday to be celebrated since the Royal Household moved to Balmoral on August 4, which was the Queen's birthday.

ITALIAN INTERNAL SITUATION

Rome, Aug. 19: The Italian manoeuvres in Sicily have concluded and Signor Mussolini has returned to Rome, where he is expected to make a speech to-morrow on the Italian situation.

Il Duce said to-day that the defences of Sicily were capable of resisting attack from any foreign power, but nevertheless the defences of the island will be reinforced.

REFUGEES IN MANILA

Washington, Aug. 19: The United States Commissioner for the Philippines has reported that 375 United States nationals have been evacuated from Shanghai and have arrived in Manila.

TO GET RID OF STOMACH TROUBLES

An English Doctor writes:—

"I find that 'Bisurated' Magnesia taken after most of my meals is the only thing that keeps me free from pain and discomfort, and I take it regularly. I often prescribe it for my patients, and have had very good results."

(Signed) Dr. H. G. — M.A., M.R.C.S., L.R.C.P.

THE English doctor is the most conservative medical man in the world, and when he not only recommends but personally uses a remedy there can be no more convincing proof of its efficacy. This doctor is but one of many who constantly advise the use of "Bisurated" Magnesia in all cases of indigestion. Most stomach troubles are caused by acidity, and the reason why "Bisurated" Magnesia gives quick relief is that it instantly neutralizes excess acid and soothes, heals and strengthens the inflamed stomach lining. Nothing could be simpler, safer or surer. If you suffer with indigestion or stomach disorders of any kind put your faith in European science and make an end of your troubles by taking "Bisurated" Magnesia after eating or whenever pain is felt.

CHINESE CO-OPERATION

The old adage that "troubles
never come singly" has never
been more forcibly emphasised
than to-day when the whole of
China, nay, the Far East and
indeed the world, is trembling
on the brink of war—a war that
can easily be avoided if the
aggressor nation, in this case
Japan, would but swallow her
pride and retire to the Land of
the Rising sun, there to put her
own house in order, for it has
been stated that internal dis-
content in Japan has grown so
alarmingly of late that the
powers-that-be in that country
had to "put on a bigger show
somewhere outside" in order to
take the people's mind off the
domestic troubles and tribula-
tions, an old Napoléonic custom.

To those who have followed Far
Eastern politics at any length it
is quite apparent that it is not
the whole of Japan but only her
militarists who desire war with
China, but these militarists have
so imposed their will on the rest
of the nation that the latter find
themselves powerless to do any-
thing.

The trouble which originated
in Lukuchiao spread rapidly and
Shanghai is now the centre of
the crisis. As may be expected
in all such instances wild and
unfounded rumours are circulated
every day and while there is a
certain section of the community
who are all too ready to give
credence to every story that is
circulated, there are, fortunately,

also those who treat such rumours
with the contempt that they
merit and in this connection we
cannot but express admiration
for the excellent restraint the
Chinese in the Colony have im-
posed on themselves. Their
behaviour throughout this crisis
is in accordance with "the
highest traditions of the Great
Republic and although there
must be some of the rowdy
elements who are only all too
willing to start "incidents" here
in Hong Kong, the glowing
example set by leaders of the
Chinese community has taken
root and to them, therefore, all
honour and praise. It is easy
enough for people other than
Chinese to advocate a "peace
and calm" policy but when there
is every provocation for "burn-
ing up"—to use a choice
Americanism—it is a quite
different thing. Hong Kong's
Chinese have won the admiration
of us all for the way they have
behaved. It is to be hoped that
those who have come to the
Colony for refuge will also behave
themselves in the true, dignified
Chinese manner. It is easy
enough to start trouble but it has
to be constantly borne in mind
that untoward incidents will not
only be not tolerated but what
is even worse still, it will also
lose the Chinese all the goodwill
they have won. A Reuter's
message from the North received
on Thursday states that "no one
knows what is in store," while
Mr. H. V. Hodson, in his
weekly broadcast, from Daven-
try, on "World Affairs" last
Tuesday asked "is this the big
explosion, or is there a bigger
one yet to come?" Frankly, we
do not know the answer to that.
We only hope the answer is that
the end of all hostilities has
come, but whatever the morrow
may hold in store for us, what-
ever the result of this deplorable
crisis in the "North," no fair-
minded person will be able to
say that China can be blamed
one iota for all the blood that
has been shed so unnecessarily.

We in Hong Kong are happily
in the position to be able to offer
some sort of refuge to our less
fortunate friends, but we are not
without our own troubles. This
terrible cholera scourge that is
sweeping the Colony at the
moment makes it impossible for
us to do as much as we would
like to, not only for the people
from the North but also for the
people from up-country who are
all "wanting to come here for
shelter. First we had to try to
rid our own house of this terrible
disease. Now we have to cater
for thousands of homeless people.
These are some of the trials and
tribulations that come not singly
but with a suddenness that gives
us very little chance. Despite
this, things are moving very
satisfactorily, thanks in a large
measure to the splendid co-
operation offered by our Chinese
friends.

MALAYAN REVIEW

Malayan Exports

How this country has recovered from the depression period is
reflected in the trade figures in the Malayan Agricultural Statistics
list for 1936, compiled by Mr. D. H. Grist, Agricultural Economist, S.S.
and F.M.S. The gross value of rubber exports, for example, was \$303-
314,838, roughly \$50,000,000 more than 1935, and that in spite of
the fact that in 1935 the total quantity of rubber exported was 590,319
tons as against 520,142 tons in 1936. Compare these figures with
those of 1932—478,835 tons, value \$77,907,551, and the then serious
plight of a country so largely dependent on rubber for its prosperity
it brought home very forcibly.

Figures for copra exports also show an appreciable improvement
on the figures for the two previous years. In 1936 Malaya 154,541
tons realised \$16,823,310 whereas in 1935 we received only \$15,120,891
for 172,212 tons.

These figures represent all coconut products, including fresh
coconuts, of which the bulk is exported to Burma, and Coconut oil.

Imports Of Rice

The statistics are encouraging, as are those of the lesser
agricultural products which are exported from Malaya. The one big
drawback, however, is that the country is still very largely dependent
on imports for her staple food—rice—on which \$32,207,427 was spent
last year. But even here there is room for gratification, from
Malaya's point of view, for that figure paid was for 533,795 tons,
whereas in 1929 we paid something like \$67,429,629 for 551,661 tons of
rice. Malaya's padi growing resources are not extensive, but there is
reason to believe that this aspect of the country's well being is not
being overlooked by the authorities concerned.

Tribute To Malayan Chinese

"Unless the pliancy of the Chinese in Malaya is removed,
there can be no unification among the Chinese residents in this coun-
try," said Mr. Chen Chung Yen, a well known journalist of Shanghai
who is now on a short holiday in Singapore. Mr. Chen has visited
most of the big centres of Malaya during the last few weeks and is
not afraid to express his observations.

The way the Chinese residents in every State and Settlement are
running their own schools is marvellous and the enthusiasm shown
everywhere in the study of Mandarin is exemplary. Mr. Chen said.
The "Chinese merchants and industrialists have taken over half a
century to establish themselves here by hard work. If they do not
take care, they will soon be replaced by better organised companies
from Europe and other countries in the West.

Many big plantations have already fallen into the hands of In-
dian moneylenders who charge excessive interest, he declared. Mr.
Chen thinks the Chinese banks here, which are running for profits
and for the benefit of the Chinese, should come to their assistance in
time of trouble. Low rates of interest should be charged so that they
can carry on their work in time of an emergency.

"I am strongly against the idea of encouraging the local Chinese
industrialists and merchants to leave Malayan field of activity and
start pastures anew in China," Mr. Chen opined.

"It is stupid for them to undo what has taken them half a
century to build up."

"Those who feel that they have spare money and time to start
industrial enterprises in China will be welcome."

The rickshaw man became a truckman as thousands fled
from Chapel and surrounding territory. (Photo, China's Week-
end Feature and Pictorial Magazine).

"TIMES" CRITICISES JAPAN

Making Volcano Out Of Molehill

London, Aug. 20. "It is time Japan learned that the free hand which she desires in East Asia will under no circumstances include licence to play havoc with the lawful interests of Britain," concludes a lengthy editorial in the "Times" dealing with the situation in Shanghai.

The journal says that Japan's recent actions in North China have forfeited her sympathy of the world, and her impetuous adventure in Shanghai deserves to lose her something more than sympathy.

On a blatantly insufficient pretext, and without adequate recourse to mediation, she started war with China, and is conducting that war by methods which include military trespass on the property of neutral Powers and which have already directly caused heavy financial and material losses to Britain and other countries.

BLAME EACH OTHER

The recent British, French and American offer to guarantee the protection of Japanese nationals in Shanghai if both sides withdraw all their extraordinary forces from the Municipal area has been refused, and each side blames the other for its non-acceptance.

The fate of this reasonable plan is likely to be the fate of all outside attempts at conciliation. Yet the rights and property of British subjects should be no less inviolable on the other side of the world than they are on this remarks the journal.—*Reuter*.

STRONG TONE

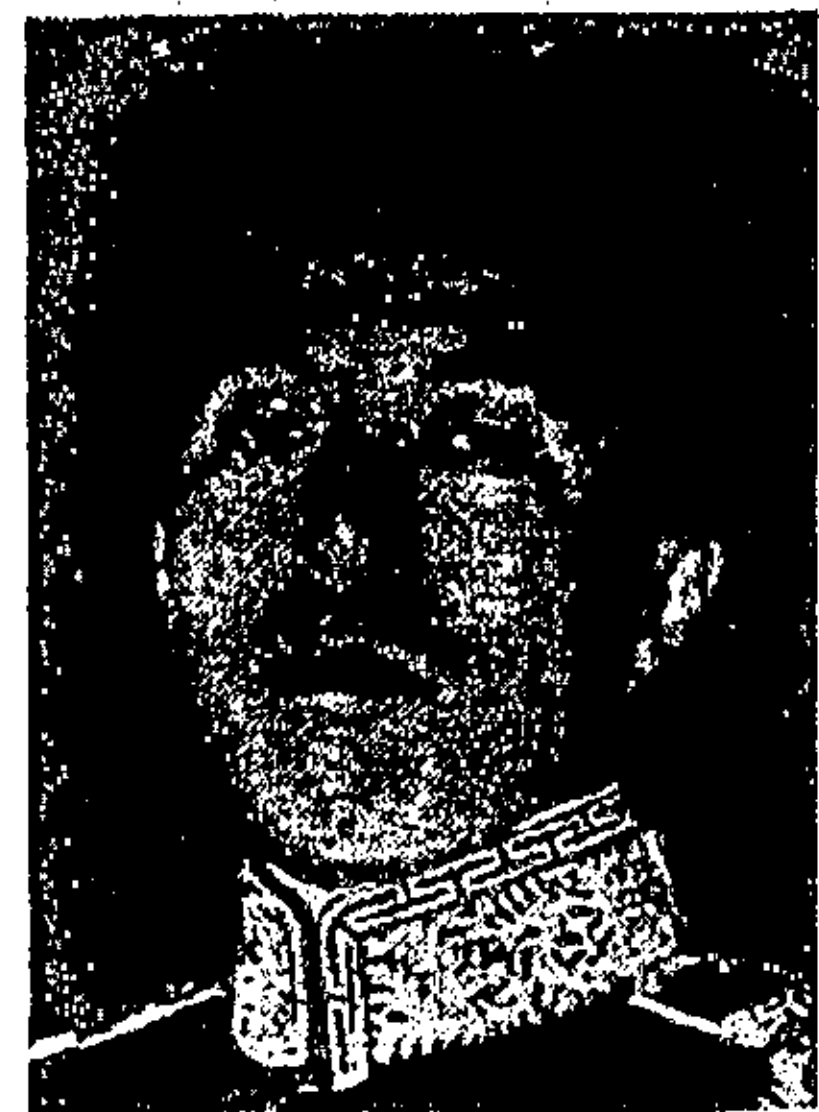

The tone of the leader towards Japan is one of the strongest which has appeared in the "Times" in recent years.

Referring to the spark which immediately caused a conflagration, namely the killing of a Japanese officer and an orderly at Hungjiao Aerodrome, the paper says the Japanese Navy has shown itself not less quick than the Japanese Army in North China to make a volcano out of a molehill.

Mentioning the danger to British property the "Times" remarks that Japan has no concession or special rights in Hongkew or any other sector. The International Settlement was the action of her own armed forces which in the first place were responsible for jeopardising the safety of her nationals and if their position had become really dangerous she could, and should have, evacuated them as she did the other day in Hankow. The paper adds she is also crying havoc in the adjacent district of Yangtzepoo. "Here is the port of Shanghai. Here are the water-works, power station and other public utilities in addition to important factories and mills the majority foreign-owned. The amount of British capital invested in Yangtzepoo probably is not far short of £100,000,000. How much farther is this kind of thing going to go?" the paper concludes.—*Reuter*.

JAPAN WILL NOT COUNTENANCE THIRD POWER INTERVENTION

Tokyo, Aug. 20: The Japanese Premier, Prince Fumimuro Konoye, stated to-day that Japan could not countenance the intervention of a third Power in the present Shanghai dispute. Prince Konoye added that the Japanese policy of non-aggravation in the situation was unchanged. He said that at the emergency meeting the Cabinet would be told that Japan will be forced to take punitive measures owing to the Chinese aggression.

Prince Konoye

The Cabinet meeting discussed the economic situation in connection with the present emergency and it is understood that the chief industries and armaments will be placed under Government supervision.—*Reuter*.

SHANGHAI HOSTILITIES SOON OVER

IS CONVICTION OF CHINESE C-IN-C.

But China Prepared To Continue Struggle

Shanghai, Aug. 20. A conviction that the hostilities in Shanghai will be soon over with a smashing victory for the Chinese was expressed by General Chang Chi Chung, Commander-in-Chief of the Nanking-Shanghai Garrison in an interview with *Reuter* at Headquarters' Gates which bore characters meaning "house of peace." He said that if the Chinese push the Japanese to the south of Soochow Creek, he expected the Settlement forces would disarm them. If they didn't or were unable to do so he would have obtained instructions from Nanking confirming what action is to be taken. He declared that in the event of a general war the time factor would be on the side of the Chinese who were prepared to continue the struggle for years.

He opined the evacuation of foreigners from Shanghai was not other businesses.—*Reuter*.

NANKING AIR VICTORY

Nanking, Aug. 20: The air defenses of the capital scored another victory yesterday when four Japanese bombers were shot down in the vicinity of Nanking during two attempted raids on this city within the space of six hours.

Military headquarters here state that the Japanese raiders started with Kwangteh in Anhwei province as their objective, but changed their plans and turned toward the capital when one of their machines crashed and burst into flames.

On approaching Nanking, the raiders were intercepted by Chinese planes near Chuoyung, scene of two scintillating aerial battles last week. One Japanese bomber was shot down near Chuoyung, after which the Japanese planes made their escape.

At dusk, another squadron of planes appeared over the capital. Anti-aircraft guns were brought into play, resulting in two of the Japanese machines being shot down.

One of the Japanese bombers fell in Hsiaoingwei in the Sun Yat-sen Memorial Park.

The other plane crashed at Langchi, killing one of its six occupants. Chinese troops are combing the vicinity for the five members of the bomber's crew who escaped.—*Central News*.

NO INSURANCE FOR GOODS AT SHANGHAI

Lloyds Give Notice

London, Aug. 20. Lloyds Underwriters Marine Assurance Companies are giving forty-eight hours' notice that they have decided not to insure goods on shore either before loading or discharging at Shanghai, or other Chinese ports including Hong Kong, Dalren and Manchukuo ports.

The rates for insurance against war risk in the Mediterranean have been increased for vessels passing the Straits of Gibraltar proceeding East, twelve degrees East longitude, that is, a line from Civitavecchia (Italy) to Tripoli for oil tankers to 20 shillings per cent, ordinary cargo tramp steamers 10 shillings per cent, but passenger liners are unchanged at 5 shillings per cent.

If a vessel from the East does not cross the above line the rate for passenger liners are 1s. 3d. ordinary cargo tramps 2s. 6d. and tankers 5s., compared with 6d. previously charged on all per cents.—*Reuter*.

JAPANESE POSITIONS PRECARIOUS

Shanghai, Aug. 20. It is reported that the Japanese Air Force has been greatly weakened by recent losses in bombing machines. Yesterday and to-day recorded, no important Japanese activities. Only two Japanese planes were observed reconnoitering over Shanghai for the protection of the Japanese warships in the river.

This morning two Japanese warplanes were seen flying in the direction of Pootung and Chapel, but owing to the activity of the Chinese anti-aircraft guns, they were unable to drop any bombs.

Should the expected Japanese reinforcements arrive, there is certain to be fierce fighting during these two days, otherwise the Chinese troops are sanguine of capturing all the important Japanese positions.—*Chinese Evening Press*.

WILL NOT MOVE SHIPS

Shanghai, August 20. American warships are remaining off the Bund as long as there is a single American left in Shanghai, declared Admiral Yarnell, replying to the Chinese notification. It is understood that Admiral Sir Charles Little, the British Commander-in-Chief is also maintaining the right to keep the warships where they are for the protection of British interests.

As a precautionary measure, the Germans spent the night in a concentration point, sleeping on camp beds.—*Reuter*.

JAPANESE BOMBERS COLLIDE
A foreign observer claims to have eye-witnessed two Japanese bombers flying in a pall of smoke from burning buildings in the eastern district come head-on in a collision at terrific speed. They burst in flames and then there was silence. It is also reported that a Japanese plane was struck down behind the Chinese lines.—*Reuter*.

MARTIAL LAW IN HONGKOW

Shanghai, August 20. The Japanese have proclaimed martial law in Hongkew. They are blowing up houses in the eastern district suspected of harbouring snipers. CHINESE PREPARE FOR ANOTHER "PUSH"

Shanghai, August 20. The Chinese spent the latter part of last night and early this morning consolidating their new positions and preparing for another determined assault on the Japanese forces. They were also very busy erecting further defences. During the night two Japanese light cruisers carrying reinforcements from Woosung unloaded troops at the Japanese wharves near the Japanese Consulate and dawn found six Japanese planes systematically bombing the Shanghai-Hangchow Railway, attempting to obstruct the arrival of further Chinese troops. Shortly after the Japanese planes returned to their base, Chinese planes appeared and bombed the Japanese positions in the northern district, several diving very low despite the continuous anti-aircraft barrage.—*Reuter*.

Both generals have contributed their own wedding rings and \$1,000 cash each. The leaders of the provincial Kuomintang in Chekiang, and Dr. Chu Chia-hua, Chairman of the Chekiang Provincial Government, have followed suit.

Local newspapers are of the opinion that the campaign should be nation-wide, and are conducting a united publicity drive to further the idea.—*Central News*.

HONG KONG ADOPTS NEW L.B.W. RULE

Cricket League Meeting

The newly established L. B. W. rule was unanimously adopted by the Hong Kong Cricket League at the annual meeting held at the Urban Council Chamber yesterday.

Mr. H. R. B. Hancock, who presided, in proposing the adoption remarked that the reason for the Colony not carrying it out last season was because it was merely an experiment. The speaker said that an application for copies of the cricket handbook will be made to the M. C. C. very shortly and members who wish to obtain one should approach the League when they arrive.

Owing to the unsound financial position of the League, the President expressed regret that they were unable to grant the usual donation to Schools which have been interested in the game of cricket.

Regarding it as a waste of time, Comdr. D'Arcy Evans, who represented the Royal Navy, proposed the elimination of the usual "tea-time" during the changing of innings. He added that the standard time allowed, which was seven minutes, would be sufficient for tea for those who wished to have it.

Dealing with the fixtures for the coming season, it was decided by the League that it should be left till later dates.

Mr. A. W. Hayward said that the possibilities of sending an Inter-port team to Shanghai were very unlikely and so the question of fixtures could be left for further discussion. He proposed that Club representatives be asked to send in to the Hon. Secretary a list of the dates on which they could play League or friendly matches so that the League Committee would

then be in the position to prepare blank tables for the Club to fill in the fixtures.

Mr. Owen Hughes said that he had been instructed by the Commandant of the Hong Kong Volunteer Defence Corps to request the League to arrange for no important fixtures during their camp days so as to enable the Corps to participate in some matches. The dates announced were November 13, 20, 27, and December 4.

League officials elected for the ensuing season were:—
President, Mr. H. R. B. Hancock; Vice-President, Mr. A. W. Hayward; Hon. Secretary, Mr. A. H. Madar; Hon. Treasurer, Mr. F. Goodwin.

League entries:—
First Division:—H.K.C.C., I.R.C., K.C.C., C.C.C. Navy, C.S.C.C. Army, Recreation.

Second Division:—K.C.C., Police, I.R.C., H.K.C.C., C.C.C. Navy, Recreation, C.S.C.C. University, Army (A and B).

MARCONI DIED STILL EXPERIMENTING Short Wave Research

It is now known that at the time of his death, Senator Marconi was devoting all his energies to continued experiments with ultra-short and micro-wave lengths.

Only the last week he was carrying out a series of special tests at the experimental station at the Papal Villa of Castel Gandolfo.

Arrangements had also been completed for extended trials between points on either side of the Gulf of Genoa.

He never admitted that and any obstacle was final, and all his genius was devoted to seeking a method by which these micro-waves could be induced to bend.

Once that was accomplished, Marconi confidently foretold new and unsuspected resources of wireless communication and control.

It is now learnt that for the past two years he was aware that his

work might be suddenly interrupted with a heart seizure.

With characteristic orderliness and courage he had so arranged his notes and data that, even his last moment researches may be used as practical contributions by his followers.

COSMIC VIBRATIONS AND LIFE

It is not generally known that Marconi was profoundly interested in the narrowing point of union between cosmic vibrations and the mysteries of life. He considered that the phenomena of the human brain had metaphysical characteristics which brought the natural and the spiritual into communion.

On one occasion he said, "It is evident that the human brain could send messages to distances infinitely more remote than any mechanical transmitter ever devised, because thought consists of a category of those vibrations which we can just capture to-day with the microphone, but infinitely more subtle."

The everyday work of Senator Marconi was devoted to more mundane aspects of science, principally the automatic wireless steering of vessels controlled from the shore, and the application of ultra-short waves to military devices of defence and offence.

ORGANISER AND PATRIOT

As an organiser he will also be greatly missed by Signor Mussolini and Italy. From the first days of Fascism he was an ardent believer in the Duce as the saviour of post-war Italy, and was his silent helper in many things.

In a posthumous broadcast message, he says that nothing pleased him more than to hear news over the world radio of modern, self-respecting, disciplined, and virile Italy. His stand in the Abyssinian war against the "dangerous folly" of the League sanctionist policy revealed his patriotism in no mistaken measure.

K.C. AND SIR B. SPILSBURY

"ALMOST A GOD IN THESE COURTS"

But A Perfectly Fair Witness

"Sir Bernard Spilsbury has now become almost automatically a god in these Courts because no one is allowed to disbelieve anything he says."

This observation was made by Mr. St. John Hutchinson, K.C., in his address to the jury at the Old Bailey for the defence of Andrew Chumley, aged 26, a fitter, of Hockley Hill, Birmingham, who was charged with the manslaughter of Daisy Vera Skeels, a 15-year-old waitress, of Hounslow, whose body was exhumed nearly three months after burial.

The girl's brother had said that Chumley struck Daisy on the chin, and Sir Bernard Spilsbury expressed the view that only a blow could explain the girl's death. Chumley had given evidence denying that he struck the girl.

"I do not say Sir Bernard should be disbelieved," said Counsel, "because he is a perfectly fair witness, but can he never make a mistake? Are you going to accept something simply because he says it is so? I was astounded when Sir Bernard said that if a big person with great strength strikes a very small person on the chin you would not expect to find any mark unless it was fractured."

"Sir Bernard may be right," he said, "but do not treat him as a person who cannot be wrong. Don't treat him as the law because, unfortunately, from Sir Bernard, there is no appeal. Sometimes it is thought that expert evidence by a man of great repute and natural honesty like Sir Bernard cannot be wrong. If you think that you might as well abolish the jury system."

LANDING GROUNDS IN MALAYA

The work of conditioning an area of 600 yards by 180 yards on the Kuala Lumpur Aerodrome was completed satisfactorily and this landing ground is now licensed for aircraft up to 5,000 pounds gross weight, says the annual report on the social and economic progress of Selangor.

The landing area has been used by the Kuala Lumpur Flying Club throughout the year and in addition private aeroplanes, Penang, Singapore and Perak Flying Club planes and Royal Air Force machines have made use of the ground.

Sanction was given towards the close of the year to proceed with an extension of the conditioned area which when completed will add 200 yards by 180 yards the south-western end of the landing area.

The estimated cost of this extension is \$12,000; work on it is now well advanced and it is hoped before the end of 1937 this extension will be ready for use and so provide a landing area of 800 yards by 180 yards suitable for all types of aircraft.

PORT SWETTENHAM. The Air Ministry decided with the agreement of the State Government to provide the necessary

funds to condition two runways on this landing ground and to this end a sum of \$177,000 was put at the disposal of the Department of Public Works.

The scheme which was prepared jointly by the Superintending Engineer, Royal Air Force, Far East, and by the Public Works Department provided for laying 78 inches of consolidated laterite gravel over two areas each 700 yards by 120 yards and so make two runways in the shape of a letter "L" in the direction of the prevailing winds.

The scheme which was prepared drainage and doming of the existing formation and also providing a waterprooed surface of bituminous treated laterite metal on the NE-SW runway.

Work commenced in April, 1936; the method of execution being by direct labour, contractors being employed for the supply of the necessary laterite gravel and metal. At the close of the year 80 per cent. of the work was completed and an expenditure of \$153,000 incurred. It is hoped that when the work is completed, it will be possible for all types of aircraft to land at the Port Swettenham Aerodrome in all weathers.

13d CORONATION STAMP FLAW

Difficulty Caused To Post Offices

A complaint by Post Office workers has revealed that a printing defect occurred in the three-half-penny Coronation stamps.

Mr. J. Coyne, Assistant Secretary of the Union of Post Office Workers, forwarded to the Director General of the Personal Department complaints by Union members that the stamps were being sent out in half sheets, some of which were without control numbers, thereby causing technical difficulties for the counter staffs.

The Director-General replying for the Post-master-General, said that the number of half-sheets constituted a very small proportion of the total supply of postage stamps, and that the half-sheets were distributed as evenly as possible over all offices.

"The time available for the preparation and production of the

WHEAT FUND

London, Aug. 19.

Owing to the improved wheat price, deficiency payments to wheat growers under the Wheat Act of 1932 will be the lowest since the Act came into operation.

Payments will leave the Wheat Fund with a surplus of £503,200.—*British Wireless.*

Coronation stamps were very limited and the printer's resources were severely taxed," he stated.

"A printing defect unfortunately occurred which affected the lower part—the part bearing the control number—of a very large number of sheets, and it was necessary to accept and distribute the good top halves in order to maintain supplies. The half-sheets were, as far as possible, speed over a large number of offices, but some offices had received more than their due proportion. The inconvenience occasioned as a result is regretted."

WORLD PEACE

Experiences Of 50 Years Ago Recalled

(To The Editor, "The Hong Kong Daily Press")

Sir,—Fortunately for mankind and civilization the present fighting in North China has revealed to the world the sterling qualities of the God-fearing and Peace-loving Chinese nation.

As the time has come to stop war and aggression, I recall that that fifty years ago in 1887, when I returned from Australia and started to organize the Chinese Revolution and the movement for Reform and Independence and open the way for my old friend and colleague, the late Dr. Sun Yat-sen and his followers of the Kuo Min Tang Party with the help of my 18 American, British and Chinese friends and colleagues, I worked for true friendship and an intelligent understanding between the peoples of these three great God-fearing nations, well knowing that through their united efforts would it be possible to save civilization from destruction.

I realized then, I do to-day, that only the God-fearing nations can save the World from the horrors of perpetual warfare and the slaughter of mankind.

The American, British and Chinese nations are the "A. B. C." Triumvirate of the League of Nations, and they possess the manpower, wealth, and natural resources, and likewise the requisite armies and navies to enable them to act as an International Police Force, and it is only a Police Force constituted of these great and powerful nations that will command the respect and obedience of the members of the League of Nations, and call a halt amongst the earth-hungry and "smash and grab" nations of the World.

Not only will this "A.B.C." International Police Force Command the respect of the different nations of the World, but it will be in a position to prevent aggression and wars of conquest, and enforce general disarmament, as advocated in my special article "An Appeal for International Sanity," published in the "Hong Kong Daily Press" dated January 19, 1932, and also the "South China Morning Post" and "Hong Kong Telegraph."

I wrote:
"Excessive armaments do not assure world security, but are a menace to it. Consequently, the League of Nations should adopt drastic measures for the reduction of armaments."

"This would mean the saving of at least \$15,000,000 (Gold) per day, and the money could be devoted to the education, health, comfort, happiness and contentment of the people. The expenses for the upkeep of the International Police Force should be placed under the control and management of a Council of Representatives guaranteed by the leading Powers of the League of Nations, which would eventually become the Government of the United States of the World."

I believe it is the destiny of America, Britain and China, the "A.B.C." Triumvirate of the League of Nations to play the role to become the International Police Force of the World.

And, only when all nations return to God and strictly observe His Ten Commandments will it be possible to bring about Universal Peace and the Brotherhood of Man.

The World is in travail—let us hope and pray for the best.—Yours etc.,

TSE TSAN TAI.

TOURING PARTY STRANDED

The well-known Yew Char tour that tours the Orient, headed by Mr. Yew Char, are now stranded in Hong Kong. The party were in Peiping and left two days before the Lukuochiao incident, and escaped from all trouble in Shanghai. None of the party except Mr. Yew Char has seen the Orient before. They hope to leave by the President Hoover.

The party consists of:—
Mrs. John H. Wilson, Mrs. Ludwig Denks, Mrs. Loklan L. Vida, Mr. and Mrs. Nelson Smith, Mr. and Mrs. H. F. Bertelmann, Mrs. Mollie P. Lalakea, Mrs. Frank H. Lacey, Miss Ngan K'n Lum, Miss Beattie Tong, Mr. Samuel L. S. Wong, Mr. Samuel Y. S. Kong, Mr. F. L. Chung, Mr. Yew Char (Tour Manager), Mrs. Yew Char, Master Lincoln Char, Mrs. Beatrice K. T. Ing Chun, Mr. Chong Char.

HAPPY VALLEY LIVES UP TO ITS NAME

Happy Valley was living up to its name when our representative called there yesterday morning, and smooth organisation characterised the reception of Shanghai refugees.

In charge of the registration of arrivals were Mr. H. G. Wallington, (Headmaster, Yaumatei English School) and the Rev. G. E. S. Updell, who, at that early hour of the morning already had over a hundred names in their book.

Dr. (Mrs.) Dovey had an excellent little consulting room fixed up in the secretary's office and adjoining corridor, where with her many helpers she was attending to the important point of vaccination and anti-cholera inoculation of mothers and their children.

Three volunteer workers, all of them trained nurses were assisting her, Mrs. Court (wife of Dr. P. F. S. Court) Mrs. G. H. Bond, and Mrs. Cuthbertson. Several volunteer nurses from St. John Ambulance Association were helping them, Mrs. Watson, Miss D. L. Lopes, Miss Kitty Fox, and Miss C. Hung, while Mrs. Clark, a V. A. D. from England has also very kindly offered her assistance. The clerical work is being carried out by Mrs. Molloy and Miss Wingfield. Mrs. Molloy, by the way, is a prospective passenger to Australia by the Neptune, which is held up for repairs in Hong Kong after grazing a reef on her way up from the South.

HEALTH GOOD

Dr. Dovey seemed very well satisfied with the health of the newly arrived refugees, but said that many of the children showed signs of the strain they had recently endured. It is hoped that the quiet and healthy surroundings at Happy Valley, and plenty of wholesome food will soon put matters right.

Mr. Taggart has done much to help in the fitting up of dormitories, and dining rooms, and a great many necessities have been sent along from the Hong Kong Hotel for the use of the refugees.

A very nice dining-room with long tables laid out with snow-white cloths and sparkling glass looked most inviting in the part-mutual room. Mr. Taggart spoke in the most enthusiastic terms of the assistance given by Mr. and Mrs. Kendal. The former is virtually in charge of the No. 2 Block, and Mrs. Kendal lends her expert help on the clerical side.

A visit to the Governor's Box showed it to be fitted up as a dormitory with about fifteen camp beds and all the other boxes are arranged in a similar manner.

LITTLE GIRLS' EXPERIENCE
Coming down the long corridor were two very charming little girls, holding hands and feeling rather strange in their new quarters.

The smaller of the two was little Elizabeth Burton, who was looking

HONG KONG HOSPITALITY

(To The Editor, The "Hong Kong Daily Press")

Dear Sir,—I had always rather discounted Shanghai's criticism of the Hong Kong mind and Hong Kong's aloof hospitality, but I am bound to say that the recent decision to accommodate the luckless refugees driven out of Shanghai in the utterly unsuitable environment and miserable living accommodation of the Hong Kong Jockey Club Stands defeats me entirely and in future we can only admit to the worst that Shanghai can say of us.

I understood the intention is even to billet some of these unfortunate people in the horse boxes or stalls at the Course.

A painful feature attached to this Area is the fact that at the very first malarial survey made in the Colony by the Naval Surgeon then attached to the Singapore Base, he discovered the famous 57 varieties of Mosquitoes in the Wong-Nel-Chong Stream Bed; to this day this grievous menace has not been intelligently dealt with.

All this when at the University not to mention Stanley College, the Peak Hotel and many other places which spring to mind we have comparatively luxurious accommodation standing vacant and, in addition at the first named a ready-made staff in the Professors, Doctors and the Lady-Members of their respective families to render such services and comfort to the poor creatures driven here for shelter as humanity would dictate.—Yours etc.,

SPEERO MELIORA.

out of her nursery window, and described how she saw the Chinese planes fly over and drop two bombs which fell near the Nanking Theatre. She said that she was not at all frightened, and that the bombs looked like two black balls dropping from the plane, but that when they hit the ground there was a terrible crash and a lot of smoke. Elizabeth said that she had to leave most of her treasures behind her in Shanghai, but that she had managed to bring her two dolls "Buttercup" and "Gertie" and her Teddy Bear.

Reginette Feldgate, the other little girl said that she watched the Chinese planes from the window of the L.S.S. building in the Avenue Joffre, and said that they seemed to be very high up, but that sometimes they swooped down to drop bombs, and then she saw a cloud of black smoke and heard a terrific crash. Reginette said that they slept on board the Rajputana last night, and then showed her camp bed near the window of one of the boxes, and said that she was very pleased to be on shore again.
